

Fond Du Lac Aeromodelers Association

Our goal is to be the friendliest club for pilots and spectators in the Midwest. We welcome anyone with an interest in R/C aviation. Visit the website at www.FDLAA.com for information about membership, upcoming events, flight instructors, and weather conditions at the field. Club meetings are called monthly (April to November) and announced by e-mail to current members.

Club Officers:

President: Dave Elsinger.....920-926-0551 President@FDLAA.com

Vice President: Andrew Schultz920-210-6661 VicePresident@FDLAA.com

Secretary: Joe Teresi.....920-468-0470 Secretary@FDLAA.com

Treasurer: Pat Mullen920-533-3773 Treasurer@FDLAA.com

A MESSAGE FROM THE CLUB PRESIDENT

Hi All,

I would just like to again thank the Ground Crew for the great work they have done to the field; I flew this weekend & it is as smooth as ever.

If any of you members see them, please say thanks for all the work they do.

Again, I want to remind all the members to try to keep the engine noise down as much as possible. Our neighbors are great & cut us a lot of slack.

If we all do a little to try to help the noise be a little more bearable, I am sure they will be happy & also they will know we are trying to be good neighbors.

Thanks,

Dave Elsinger

UPCOMING EVENTS

AUGUST 18-20, 2022

Warbirds and Classics Over the Midwest

AUGUST 21, 2022

Robert Wellnitz Memorial Air Show

ANNOUNCEMENTS

Just a reminder - lock up the gate if you are the last one out for the night.

Have items for sale? We would be happy to post them in the newsletter. Items will be listed for 3 months.

GETTING READY FOR SUMMER

Thank you to Clyde Denzer for the following photos and information. Nice work, fellas!

We have turned the corner and are looking forward to flying outdoors again. The replacement of the mailbox pole was due to the trailer/driver that picked up our Toro mower knocked down the original post with his trailer. Oh well! The roller is thanks to Dave. It will be used to roll the field providing it dries out before the roller has to be returned to its owner. It is a Cat CB10 - 21,600 lbs with drum widths of 67" and a max speed of 7mph. It is a big mama! Thanks Dave!!!

NEW AIRPLANE ALERT

Roger Woelke scratch built this plane from cardboard. The plans came from an older magazine, obviously before foam became popular. He tweaked it a bit, but it remains a basic cardboard airplane. Nicely done, Roger!
